

# Call for Abstracts

## Finnish Remote Sensing Days

### October 23-24, 2013

Venue: DIPOLI Congress Centre, Otaniemi, Espoo  
Organized by the Finnish Remote Sensing Club and  
hosted by the Finnish Geodetic Institute

You are cordially invited to submit a short (one page) abstract for review by 31 August 2013. The abstract submission system will be opened in the beginning of August. Detailed instructions and templates can be found at <http://www.kaukokartoituskerho.fi/2013>. Language of abstracts is English. Authors should also indicate their preference for oral or poster presentation. Language of presentations is Finnish or English. Presentation slides should be prepared in English.

#### Highlighted topics:

- Copernicus programme, Sentinel missions, on-going EU projects
- UAV applications
- Remote sensing of cryosphere
- Remote sensing of Arctic regions
- Remote sensing of land cover (and) change detection
- Forests: from single-tree laser scanning to global albedo
- New instruments and algorithms

Abstracts from all other areas are also welcome, as well as posters already presented at more specialized international meetings.

#### Important dates:

Abstract submission dead-line: August 31, 2013  
Notification of acceptance: September 30, 2013  
Remote Sensing Days: October 23–24, 2013

#### Organizing committee:

- Mika Karjalainen (FGI)
- Robin Berglund (VTT)
- Timo Kumpula (University of Eastern Finland)
- Kari Luojus (FMI)
- Matti Mõttus (University of Helsinki)
- Jaan Praks (Aalto University)
- Miia Salminen (SYKE)
- Matias Takala (FMI)
