

# Nordic Remote Sensing Days

22-23 October 2009, Helsinki Finland  
Organised by Finnish Remote Sensing Club

*The Finnish Remote Sensing Club organizes the annual remote sensing days of 2009 with a special theme of "Strengthening the Nordic Dimension". Participants are invited from all Nordic countries. Prominent key note speakers from all Nordic countries describe their Earth Observation activities. Thematic workshops are aimed to develop Nordic co-operation in all levels, from project proposals to political feedback. Conference registration is free of charge*

#### Call-for-papers:

Short abstracts maximum one A4 should be submitted in pdf format by **23.8.2009** to [papers.2009@kaukokartoituskerho.fi](mailto:papers.2009@kaukokartoituskerho.fi)

Format templates can be downloaded from

<http://www.kaukokartoituskerho.fi/2009>

Author should indicate oral or poster presentation preference. Presentation length is 15 min. The official language of the days is English.

Abstracts are invited from the following topics:

- Nordic countries in European programmes
- Land cover / land cover change
- Baltic sea and water quality
- Cryosphere (snow/ice)
- Climate change
- Image processing and interpretation
- Forest
- Atmospheric remote sensing
- Risk / emergency applications
- Education / public outreach
